

Combining global expertise with local service

Pump Design, Manufacturing & Rotating Equipment Repair Specialists

KETO BMC is committed to delivering industry leading products and services which meet the technical and commercial challenges of their customers

KETO Bakersfield Machine Company is extremely proud to have consistently provided high quality manufacturing, assembly and repair services to businesses across the country for over 100 years.

KETO is a leading provider of designed slurry pumps, parts and associated products offering complete slurry pump packages to the global minerals industry. KETO provides a comprehensive range of value added services; from pump selection and training through to start up and technical support.

With their expert staff, state of the art technology and progressive engineering solutions, KETO BMC can completely engineer, customize and manufacture parts and systems to meet their customer needs.

Customer satisfaction is ingrained in our culture. The company philosophy is to provide customers with a full range of exceptional services. By combining the newest technology in manufacturing, assembly and repair services, KETO BMC ensure our customers are receiving the best, most consistent, accurate service available.

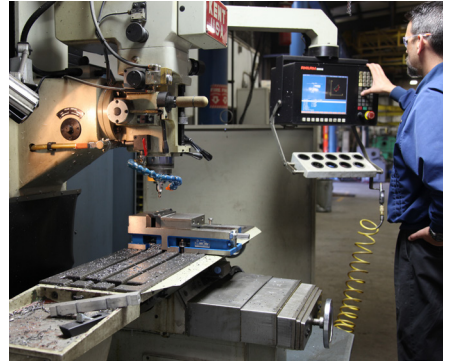

We offer twenty-four hour service, seven days a week for those unplanned and unexpected emergencies.

Trust is built not only on our products, but also on our advice and service. We can support you through every aspect of your project, thereby laying the foundation for future efficiencies.

KETO Bakersfield Machine Company Core Competencies

- Repair of slurry pumps, horizontal, vertical sump pumps in all rubber or high-chrome construction for abrasive, corrosive and acid services
- Rapid response to the breakdown of critical equipment to full service exchange program
- Capability to repair and upgrade a wide range of pump equipment from clear liquid to slurry and from multi-stage verticals to horizontal split casings
- Specialized compressor, centrifuge repair, gear reducers and drive component capability
- Maintenance, overhaul, re-rates, problem solving and technical support
- Re-engineer problematic pump parts to decrease deliveries and downtime as well as increase customer productivity and efficiency
- Provide complete pumps and parts or remanufactured pumps to replace or add to your existing Durco, Goulds, Allis-Chalmers, Peerless, and Layne-Bowler installations
- Engineered mechanical seal solutions to improve process performance

Industries Served

- Oil and gas
- Mining
- Pulp and paper
- Water treatment
- Power utilities
- Chemical
- Manufacturing
- Petrochemical
- Agriculture
- Food processing
- Refining
- Refrigeration

Equipment & Facility

Presses:

- 50 Ton vertical
- 300 Ton horizontal

Grinders:

- 30" Rotary surface grinder
- Universal to 24" Dia. x 60" long

Engineering:

- AutoCAD
- SolidWorks Premium workflow simulation
- Romer Absolute with integrated scanner
- CamWorks

Welding & Metalizing:

- SMAW, GTAW, GMAW and SAW
- METCO - 6P, 14E & HVOF
- Magna Flux & dye penetrant inspection

Other:

- Steam cleaning
- Hot tank cleaning
- Sand blasting
- Fork lifts to 30,000 lb. (7)

Lifting Capacity: 20 Tons

Lathes: up to 68" Dia. x 26' in lg.

Vertical Boring Mill: 66" Dia. x 56" ht.

CNC Equipment:

- ROMI 27x120 hybrid lathe
- Mori Seiki 2500 mill turn
- HAAS VF-4 vertical mill
- KENT vertical mill
- PAMA horizontal machining center
- X-118, Y-78, Z-102

Dynamic Balancer:

- Schenck 80" Dia. 8000 lb.

Mills & Drills:

- Summit HBM X-53, 7-42, Z-53 (2)
- Knee mills (4)
- Radial drill press (3)
- Key seater

Vehicles:

- Field service truck with tooling
- Flatbed F-750 (2), pick-ups (7)
